

Hello everyone

Monday 18th October – 2pm

Sending out this note to remind everyone that there is a possibility we may go back down to Alert Level 2 tonight.

If we do, all suspended non-essential care will be reinstated.

We will work as quick as we can in the office to get all these shifts back to showing on everyone's rosters.

When we move to Alert Level 2 can all Support Workers please resume normal allocated shifts.

Any Clients who don't want their care resumed - please call us.

Any Support Workers who can't work – please call us.

Any questions at all – please call us.

But - if we stay at Alert Level 3 nothing will change, all non-essential care will remain suspended until we go back down to Alert Level 2.

Noho ora mai,

Leanne
